 Mosaic 2.7
 ECS Client

Notes:

- 1) The HP2IT, SGI1IT, and SUN1IT machines should be configured as:
 Clearcase Clients
- 2) Testers (8) must be able to access the following machines on the EDF infrastructure:
 - XRunner/LoadRunner (sim)
 - DDTS (triton)
- 3) The UNIX userid, ep7itadm, should be created to login to any of these machines
- 4) The DCE account name, ep7itadm, should be created to login to this cell
